Comprehensive listing of science and technology R & D in the public sector in Nova Scotia. The information in the directory was provided by the 20 institutions involved in response to a questionnaire designed specifically to document their science and technology expertise. Coverage was restricted to institutions performing R & D; training establishments were excluded. The main body of the directory contains standardized profiles of each of the institutions, including main areas of R & D with a detailed breakdown; major facilities and equipment; major programs and services; ways to access these R & D capabilities; and key contact personnel. The directory also includes an index to R & D activities, additional sources of technical expertise and information, and brief descriptions of government programs relevant to industrial R & D and technology investments, with contacts.
